

Before, During and After Photos

Before Treatment

Photo Date: 8/3/2006

Description: Large infestation in Lindo Channel, surrounded by extensive vegetation.

After First Treatment

Photo Date: 7/21/2007

Description: Treated in October 2006 using a foliar application of Glyphosate and Imazypr (2:1 ratio). Note that there is still green foliage on the tops of some of the canes.

After Second Treatment

Photo Date: 5/26/08

Description: Re-treated in October 2007 using a foliar application of Glyphosate and Imazypr (2:1 ratio). Note that most of the infestation has begun to decay and disappear, with surrounding vegetation taking over the site.
